

CORONAVIRUS: WHAT IS SOCIAL DISTANCING?

Coronavirus is spread easily and is deadly. Social distancing, also called physical distancing, is an important way to stop the virus from spreading

Stay at least 6 feet away from people out in public, even if they don't look sick

Stay at least 6 feet away from people out in public, even if you are wearing a face covering

Don't shake hands, hug or kiss people you don't live with

Don't visit friends and family because you may put each other at risk of getting sick

Don't leave your house unless you have to go to work, the store or the doctor

Stay home as much as you can and talk with people on the phone

Social distancing saves lives
